www.visitbgohio.org

Bowling Green has noticed the extreme importance of recycling to reduce and reuse waste. They have started this way of thinking by developing the recycling center. At this facility they recycle waste from all of wood county. Phoenix Technologies is a leader in PET recycling technology. They recycle post consumer plastics that will later be reused. Bowling Green Wind Turbines are the first in Ohio. There are currently four turbines at the site.

See Contact Information above for scheduling of tours.

BG's Day of Recycling Reduce and Reuse itinerary

8:30 A.M. Before starting your tours of Bowling Green's recycling facilities take time to renew yourself with breakfast at one of our many morning spots.

- Tim Horton's
- Bob Evans
- Waffle House
- Kermits

9:30 A.M. After breakfast attend a tour session at **Phoenix Technologies** and see how your plastic recyclables are used.

11:30 A.M. After touring **Phoenix Technologies** take time to reflect your experience during lunch at **El Zarape**.

12:30 P.M. Once you feel reenergized make your way to the **Bowling Green Wind Farm** and see how green energy is generated.

2:00 P.M. When finished you will want to head to the **Bowling Green Recycling Center** and see our state of the art recycling facility.

3:30 P.M. Take time and reflect upon your experiences throughout the day at our city park.

5:00 P.M. Before leavening Bowling Green explore our Historic Downtown. While exploring visit one **Easy Street Café** for a nice relaxing dinner.
